Summary

"Dedicated and passionate software enthusiast with a solid background in algorithms, data structures, and C++. have a strong foundation in web development technologies including HTML, CSS, JavaScript, Express, MongoDB and others. I like addressing challenging challenges, and I've developed my problem-solving abilities via practical experience and a dedication to lifelong learning. I enjoy working in teams and am eager to contribute to creative projects that make use of my technical knowledge.

Experience

Head of Events

GDSC

Aug 2023 - Present (5 months)

As an Activity Lead for GDSC, I was in charge of planning and running tech-related events at our college. I worked with a team of student volunteers to make sure everything went smoothly. Our goal was to create a fun and learning-friendly environment for students. I helped the club grow and encouraged more students to get involved in tech and learning new skills.

Technical Head

Terna Engineering College

2023 - Present (less than a year)

During my tenure as the Technical Head for Terna Engineering College, Avalon Techfest, I showcased strong leadership and technical skills. I spearheaded various technical initiatives, coordinating with teams to ensure the seamless execution of events, workshops, and competitions

Education

Terna Engineering College

Bachelor of Engineering - BE, Mechatronics, Robotics, and Automation Engineering

2020 - 2025
